

NSC

IOT

NSC³

by NSION Technologies

NSC IoT is highly optimized sensor data client mainly for vehicle operated and mounted or static sources. IoT service provides connectivity from mounted devices to vehicle computers running Windows or Linux based solutions.

All NSC3 transmitted data is end-to-end encrypted using AES 256 and TLS 1.2.

Abilities, Functions

Broadcast

System requirements

IP or PoE camera and sensors, USB & embedded cameras, vehicle computer.

Devices

Vehicle cameras, fixed or mounted sensor data sources with operating system support.

Supported and recommended technology and configurations

Hikvision, Dahau, Niceview (Milestone, Bosch, Ernitec, Canon + most major manufacturers)
