

# NSC

WEBAPP

**NSC<sup>3</sup>**  
by NSION Technologies

**NSC WebApp** is the main body and the communications hub from which the NSC3 operates from. It's accessible with a web browser and consists of several operational functionalities designed to plan and execute tactical level operations. It provides a mission control and field command with its own organization structure.

Playback, Archive and Distribute (Share) are the main controls/features available for the video stream management.

All NSC3 transmitted data is end-to-end encrypted using AES 256 and TLS 1.2.

### **Abilities, Functions**
